**Logging and Review**: Students are required to log their clinical encounters and skills. All expected content is reviewed during orientation and again at mid-year. The UCR School of Medicine utilizes New Innovations for case logging.  Students review clinical encounters with the clerkship directors at weeks seven, 14 and 21. If there are cases where significant gaps exist, clerkship directors work with students to identify a work plan that will allow students to meet expectations.

**Required Clinical Experiences by Specialty:**

| Discipline/ Patient Type | Setting | Level of Student Participation | Ancillary Reading |
|---|---|---|---|
| **Internal Medicine** | O=outpatient I=inpatient S=simulation | O=observation P=participate with supervision I=independent with supervision | **SIMPLE Modules** ([www.aquifer.org](www.aquifer.org)) Read the following modules if a case is not logged by week 14: |
| Abdominal Pain, IM rotation | I | I | 9, 10, 11 |
| Anemia | O/I | I | 19 |
| Fever | O/I | I | 21,24 |
| Fluid, Electrolyte, Acid-Base disorder | I | I | 25 |
| GI Bleeding | O/I | I | 10 |
| Dysrhythmias | O/I | I | 3 |
| CAD | O/I | I | 2 |
| Acute/Chronic Renal Disease | O/I | I | 23,33 |
| COPD | O/I | I | 28 |
| Congestive Heart Failure | O/I | I | 4 |
| HIV | O/I | I | 20 |
| Liver Disease | O/I | I | 11,36 |
| Nosocomial Infection | I | I | 24 |
| Pneumonia | O/I | I | 22 |
| Rheumatologic Disorders | O/I | I | 32,35 |
| TB or +PPD | O/I | I | 20, 29 |
| Venous Thromboembolism | O/I | I | 30 |

| Discipline/ Patient Type | Setting | Level of Participation | Ancillary Reading |
|---|---|---|---|
| **Surgery** | O=outpatient I=inpatient S=simulation | O=observation P=participate with supervision I=independent with supervision | **WISE-MD (or SIMPLE) Modules ([www.aquifer.org](www.aquifer.org))** Notations are for WISE-MD unless specified otherwise. Perform the modules if the cases are not seen buy week #14. |
| Abdominal Masses | O/I | I | Abdominal Aortic Aneurysms, Adrenal Adenoma, Bowel Obstructions, Hernia |
| Abdominal Pain, Surgery rotation | O/I | I | Appendicitis |
| Breast Disorders | O/I | I | Breast Cancer Surgery |
| Perioperative fluid and electrolyte disorders | I | I | (SIMPLE) module #25 |
| Hepatobiliary disease | O/I | I | Cholecystectomy |
| Wound care/non-healing wounds | O/I | I | |
| Perioperative care: wound, drain and ileus management | I | I | |
| Shock/Trauma Care | I | P/I | Trauma Resuscitation |
| Nutrition in Surgical Patients | O/I | I | Bariatric Surgery |
| Colorectal disease | O/I | I | Anorectal Disease, Appendicitis, Colon Cancer, Diverticulitis |
| **Procedures** | | I | |
| Basic suturing | O/I | P | Skills Module 2, 3 |
| Sterile Technique | O/I | I | Skills Module 1 |
| Wound care management | O/I | P | |

| Discipline/ Patient Type | Setting | Level of Participation | Ancillary Reading |
|---|---|---|---|
| **Family Medicine** | O=outpatient I=inpatient S=simulation | O=observation P=participate with supervision I=independent with supervision | **fmCases Modules ([www.aquifer.org](www.aquifer.org))** Notations are for fmCases unless specified otherwise. Perform the modules if the cases are not seen buy week #14. |
| Adult Well Care | O | I | fmCases #1,2 |
| Diabetes | O | I | #16 |
| Hypertension | O | I | 8 |
| Sinusitis | O | I | 13 |

| | | | |
|---|---|---|---|
| Back Pain | O | I | 10,11 |
| Tobacco dependence | O | I | 28 |
| URI, adult | O | I | 21 |
| Thyroid Disease | O | I | CLIPP #9 |
| Obesity, not in a child | O | I | fm#21, SIMPLE#16 |
| Rash | O | I | Fm#16, CLIPP#32, SIMPLE #17 |

| Discipline/ Patient Type | Setting | Level of Participation | Ancillary Reading |
|---|---|---|---|
| **Pediatrics** | O=outpatient I=inpatient S=simulation | O=observation P=participate with supervision I=independent with supervision | **CLIPP Modules** (**www.aquifer.org**) Notations are for **CLIPP** unless specified otherwise. Perform the modules if the cases are not seen buy week #14. *n/a = already assigned in the first 3 weeks of the rotation |
| Normal newborn | O/I | I | *n/a (module 1) |
| Newborn w/murmur | O/I | I | #18 |
| Normal/Abnormal Growth and Development | O/I | I | *n/a (2,3,9) |
| Upper Respiratory Illness | O/I | I | CLIPP#12,(fmCASES#21) |
| Asthma | O/I | I | *n/a (13) |
| Nausea/Vomiting, pediatric | O/I | P/I | *n/a (15) |
| Diarrhea, pediatric | | | CLIPP #15 |
| Obesity, childhood | O/I | I | 4 |
| Congenital disorders incl infection | O/I | P/I | 29 |
| Otitis media | O/I | I | 18 |
| Pharyngitis | O/I | I | fmCASES #23 |

| Discipline/ Patient Type | Setting | Level of Participation | Ancillary Reading |
|---|---|---|---|
| **OB/Gynecology** | O=outpatient I=inpatient S=simulation | O=observation P=participate with supervision I=independent with supervision | **APGO Modules**: found at https://www.youtube.com/channel/UCB67eiHQzqqLUBHrDJzYdtQ Perform these if you have not seen the case by week #14. |
| Normal pregnancy incl peri-postpartum management | O/I | I | APGO # 9,10,11,13 |
| Hypertension in pregnancy | O/I | P/I | APGO #18 |
| Bleeding per vagina | O/I | P/I | 23,27,45 |
| Amenorrhea | O/I | I | 43 |
| Dysmenorrhea | O/I | I | 15,38,39,46 (See pelvic pain below) |
| Menopause | O/I | I | APGO#47, SIMPLE#13 |
| Pelvic Pain | O/I | I | 15,38,39,46 |

| Sexually transmitted infection | O/I | I | 36 |
|---|---|---|---|
| Abnormal pap smear | O/I | P/I | 3,52 |
| Contraception management | O/I | I | 33 |
| Gynecologic malignancy | O/I | P/I | 53,54,55 |
| Urinary complaint | O/I | I | 37 |
| **Procedures** | | I | |
| Normal Delivery | I | P | |
| Pelvic examination w/ or w/o pap | O/I | P | |
| Caesarian section assist | I | P I | |

| Discipline/ Patient Type | Setting | Level of Participation | Remediation for lacking Patient Type |
|---|---|---|---|
| **Medicine Emergency** | O=outpatient* I=inpatient S=simulation *in Emergency Department | O=observation P=participate with supervision I=independent with supervision | The student will perform a module, or deliver a 1-2 page report with at least 2 recent references (including history, physical signs, DDx, and Treatment options of the disease) to the Clerkship Director for each condition not seen |
| Resuscitation | O | P/I | See above |
| Trauma | O | P/I | See above |
| Chest pain | O | P/I | See above |
| Nausea/vomiting, adult | O | I | See above |
